Dr. Joshua Lederberg
President
Rockefeller University
1230 York Avenue
New York, New York 10021

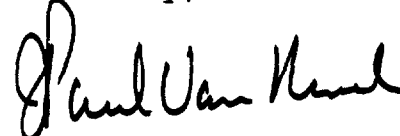

Dear Dr. Lederberg:

As you know, the 20th anniversary of the National Cancer Act will occur December 23, 1991. This Journal's last 1991 issue will be published December 18, and we would like to include in a special anniversary section of that issue a three- or four-page[#] statement about what you believe was the impact of the National Cancer Act.

We are inviting statements from all those who have chaired the President's Cancer Panel since 1971, all who have chaired the National Cancer Advisory Board, all who have served as NCI director, the 1971 chairmen of the Senate Labor and Human Resources Committee and the House Energy and Commerce Subcommittee on Health and the Environment, and others, including former President Richard M. Nixon, Mrs. Albert Lasker, and Ann Landers, who played a major role in connection with the National Cancer Act of 1971.

If we are to include your statement, we need to have it not later than November 22. We hope you are willing to help us. Please send your statement to me at the address on the letterhead.

Sincerely,

J. Paul Van Nevel
News Editor
